## READING ACTIVITIES

**After read the text, copy and answer the following questions on your notebook:**

Remember: you must make complete sentences.

**2.1. Where does the Sun rise? Where does it set? Why do you think we see it that way?**

The Sun rises in the **East** and it sets in the **West**.

It is an **optical illusion**. The Sun does not move, but the Earth rotates from West to East and this provokes that apparently the Sun moves from East to West.

**2.2. What are the consequences of rotation and revolution of the Earth?**

The consequence of the **rotation** of the Earth is the **alternation of day and night**.

The consequence of the **revolution** of the Earth is the **seasons**.
