

SPECIFIC VOCABULARY**UNIT 7: Vertebrates**

Vertebrates		Mammary glands	
Digestive system		Hair	
Mouth		Teeth	
Stomach		Womb (uterus)	
Intestine		Homeotherms (warm-blooded)	
Anus		Fertilisation	
Respiratory system		Viviparous	
Lungs		Embryo	
Gills		Young	
Circulatory system		Placenta	
Heart		Birds	
Blood vessels		Feathers	
Excretory system		Wings	
Kidneys		Beak	
Nervous system		Cloaca	
Brain		Air sacs	
Sense organs		Hollow bones (Pneumatic bones)	
Endocrine system		Keel	
Skeleton		Oviparous	
Skull		Egg	
Spinal column (backbone)		Amnion	
Bones		Chicks	
Muscle system		Reptiles	
Reproductive system		Scales	
Tegument (skin)		Carapace	
Head		Poisonous glands	
Neck		Fangs	
Trunk		Poikilotherms (cold- blooded)	
Tail		Ovoviviparous	
Limbs		Amphibians	
Jaws		Legs	
Tetrapods		Mucus	
To relate		Metamorphosis	
To evolve		Tadpoles	
To appear		Fish	
To atrophy		Spindle-shaped	
To shed		Fins	
To hatch		Swim bladder	
To incubate		Lateral line	
To undergo		Mammary glands	
Mammals		Cartilage	
Sweat glands		Dermal denticles	
Sebaceous glands		Operculum
